PERFORMANCE ASSESSMENTS OF THE REGISTRAR'S OFFICE

In my judgment the Registrar's Office is making a major contribution to the college in the area of public relations. The goal of all of us is to make service personal to all that call upon us. Each member of our staff has a specific job assignment, and the job is usually done with dispatch and courtesy.

The Registrar's Office is the official depository of all academic records of the students. The Registrar's Office provides the following services: general information; transcripts; grades; graduation certification; registration and any other information needed on academic records and reports. Each member of our staff has fulfilled his commitment to the College. I am delighted to see the high degree of enthusiasm displayed by all of our workers. It is catching to our student workers.

The College is honored to have such a dedicated force handling the academic records and reports of our students and Alumni. Special commendations are in order for each member of this staff.

We have made all of the required reports to the coordinating board and other agencies of the state.
